This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

+ *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
+ *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
+ *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
+ *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

INITIAL CORPORATION FEES, COMMISSIONS, ETC.

The receipts from initial corporation fees and other miscellaneous sources during the year amounted to the sum of $242,231.60, an increase of $5,602.19, as compared with 1901, and the largest annual receipts in the previous history of the Department.

The quarterly receipts were as follows:

First Quarter	$69,633 00
Second Quarter	59,718 04
Third Quarter	51,188 93
Fourth Quarter	61,691 63
Total	$242,231 60

Derived from the following sources:

	Domestic Corporations.	Foreign Corporations.	Official Commissions.	Certified Transcripts.	Howe's Historical Collections.	Geological Survey of Ohio.	Ohio Statesmen and Hundred Year Book.	Itinerant Vendors' License.	Total.
First Quarter..	$46,803 50	$20,462 35	$1,934 00	$373 00	$27 00	$8 15	.....	$25 00	$69,633 00

COMPARATIVE ANNUAL RECEIPTS.

From 1880 to 1889 the average annual receipts of the Department from all sources were $13,784.39.

By the act of February 12, 1889, domestic corporations were required to pay a fee for filing articles of incorporation of one-tenth of one per cent. upon their authorized capital stock.

By the act of May 16, 1894, foreign corporations were required to file certain statements with the Secretary of State and pay a fee of one-tenth of one per cent. upon that portion of their capital stock represented by the products owned and used and business transacted in this state.

And by the act of April 25, 1893, as amended May 19, 1894, such foreign corporation was required to pay an additional fee for a certificate from the Secretary of State that "it has complied with the requirements of law and is authorized to do business in this State."

Under the operation of these laws the annual receipts of the Department were greatly increased, as appears from the following table:

1889	$146,379 13
1890	193,200 72
1891	105,403 47
1892	120,076 60
1893	170,301 00
1894	92,921 99
1895	124,737 66
1896	119,309 15
1897	70,679 14
1898	95,608 85
1899	214,206 60
1900	134,025 82
1901	236,629 41
1902	242,231 60
Total	$2,065,711 14

From the above statement it will be observed that the total receipts from all sources for the years named were $2,065,711.14, and that the average annual receipts since the enactment of the law of 1889 were $147,550.80.

ANNUAL CORPORATION FEES.

I suggested in my annual report of last year the "wisdom of further legislation in line of the past policy of the state requiring corporations, for profit, to file annual reports showing location of business, names of officers, or agents, and such other information as may be proper in the conduct of the business of the Department."

"Several of the leading manufacturing states have enacted such laws and require domestic and foreign corporations, for profit, to file annual reports and pay annual fees based upon the amount of capital stock and business done within such states."

At its regular session of 1902, the 75th General Assembly enacted a law known as the "Willis Law" to require corporations to file annual reports with the Secretary of State and to pay annual fees therefor.

Public service, insurance, and building and loan corporations were exempted from the provisions of the act.

By its provisions every domestic corporation, for profit, is required to file an annual report during the month of May and pay an annual fee of one-tenth of one per cent. upon its subscribed or issued and outstanding capital stock, and not less than ten dollars in any case.

Every foreign corporation is required to file an annual report during the month of September and pay an annual fee of one-tenth of one per cent. upon the proportion of its authorized capital stock represented by property owned and used and business transacted in Ohio, and not less than ten dollars in any case.

Every corporation, not for profit, is required to file a report during the month of December and pay an annual fee of one dollar, except cor-

porations organized under section 148*a*, paragraph 4, of the Revised Statutes, in which latter case the fee is ten dollars.

This law took effect April 11, 1902.

Prior to the close of the year, ending November 15, 1902, the receipts from the operation of this law were as follows:

DOMESTIC CORPORATIONS.

Number annual reports filed	4,575	
Amount of Fees collected		$428,084 83
Fees contested or in process of collection		2,405 70

FOREIGN COPORATIONS.

Number of annual reports filed	535	
Annual fees collected		$120,000 00
Annual fees contested or in process of collection		37,940 41
Total		$588,430 94

Total receipts of the year from general sources, and corporation annual fees collected and in process of collection under reports filed	**$830,662 54**

REDUCTION OF CAPITAL STOCK.

One effect of the operation of the Willis law is the reduction of excessive and unemployed capital stock of corporations.

These reductions represent old corporations not in active business, yet retaining a nominal existence; corporations whose business has been sold to or consolidated with new corporations; and other active corporations whose original capitalization was greater than required for the purposes employed.

During the year these reductions amounted to $28,920,855. The increases of capital stock for the same period amounted to $70,695,000, showing that, notwithstanding the effect of the Willis law, the total increases of capital stock of corporations exceed the total reductions by $42,044,145.

There are several thousand corporations appearing upon the books of the Department. Heretofore it has been impossible to determine how many of these were actually existing each year, as no provision was made for a report to the office of the dissolution or abandonment of corporations under the methods provided by law.

By an act of April 18, 1902, a simple and inexpensive method has been provided for making such dissolution by a certificate of the proper officials to be filed in this office, from which due entry thereof may be made on the records.

By one of the provisions of the Willis law foreign corporations are required to file certificates when they retire from doing business within the state.

The number of dissolutions and retirements of corporations filed subsequent to the passage of these acts is 877.

The fees for filing such certificates amounted to $1,453. These latter fees were included in the total of the general receipts of corporations above given.

NEW LEGISLATION.

Several very important laws have been enacted by the 75th General Assembly beneficial to corporations and tending in a large degree to encourage organization under the laws of Ohio in preference to those of other states.

The act of May 10, 1902, gives the Governor and Secretary of State power to remit penalties against foreign corporations for failure to comply with the provisions of the corporation laws where good cause is shown for such failure or neglect. This law also provides that, where two-thirds of the property or business of a foreign corporation is invested in Ohio, and the corporation pays one-tenth of one per cent. upon its authorized capital stock, the shares of stock of such corporation held in Ohio need not be returned for taxation.

The act of May 6, 1902, provides that a corporation may purchase or otherwise acquire or hold shares of stock in kindred but not competing corporations, whether domestic or foreign.

The preferred stockholders' law of May 12, 1902, repeals many of the restrictions theretofore existing in the issuance of that class of stock and authorizes corporations to create such a "designation, preference and voting powers or restrictions or qualifications thereof as shall be stated and expressed in the certificate of incorporation;" the redemption of preferred stock at not less than par at a fixed time and place to be expressed in the stock certificates, and fixes the maximum preferred dividends on preferred stock at eight instead of six per cent.

The act of April 29, 1902, provides that an action upon the liability of stockholders of corporations can only be brought within eighteen months after the date the obligation shall become enforceable against such stockholders.

Several resolutions were adopted by the 75th General Assembly for the submission of important amendments to the Constitution at the general election in November, 1903. Among these resolutions was that of April 29, 1902, which provided for the submission of an amendment to the Constitution to be known as the stockholders' liability amendment, and in effect abolishing the double liability law of the Constitution. Great difficulty has heretofore been experienced in obtaining a full expression of the voters of the state on Constitutional amendments when submitted. The act of May 2, 1902, provides that, when an amendment to the Constitution is to be submitted it may be approved or disapproved by the state convention of a political party, and the affirmative or negative of the proposition so submitted may be printed with the party ticket on

the official ballot, so that when the voter desires to vote a straight ticket he may do so by placing a cross mark in the circle at the head of the party ticket, and thus vote for all the nominees and the amendment if so recommended by his party convention. This law further provides that each of the amendments so submitted shall be printed in a separate column upon the official ballot, thus reserving to the voter the right to express his choice thereof independent of the action of party conventions.

SUPREME COURT REPORTS.

During the year the following volumes of Supreme Court Reports were issued:

To the Supreme Court of Ohio, twenty-five copies of volume 65; to the Auditor of State, one copy of volume 65; to the Attorney General, two copies of volume 65; to the Attorney General, Washington, D. C., one copy of volume 65; to the Bar Association, Columbus, Ohio, one copy of volume 65; to the Dairy and Food Commissioner, one copy of volume 65; to the Solicitor General, Washington, D. The Circuit and District Courts for the Eastern Division of the Northern District are held at Cleveland on the first Tuesday in February, April and October.

The Circuit and District Courts for the Western Division of the Northern District are held at Toledo on the first Tuesday in June and December.

The Northern District is, by law, divided into two divisions — the Eastern and Western — but having only one set of court officers, as above. The clerk and marshal of the court each has an office, and deputies in regular attendance, at both Cleveland and Toledo. The counties comprising the two divisions are as follows:

COUNTIES COMPRISING EASTERN DIVISION.

Terms of Court held on the first Tuesday of February, April and October, at Cleveland, Ohio:

The Circuit and District Courts for the Eastern Division of the Southern District are held at Columbus on the first Tuesdays of June and December.

The Circuit and District Courts for the Western Division of the Southern District are held at Cincinnati on the first Tuesdays of February, April and October.

The Southern District is, by law, divided into two divisions — the Eastern and Western — but having only one set of court officers, as above. The clerk and marshal of the court each has an office, and deputies in regular attendance, at both Columbus and Cincinnati. The counties comprising the two divisions are as follows:

The United States Marshal for the Southern District of Ohio performs the duties of marshal of the court.

The Sixth Judicial Circuit comprises Michigan, Ohio, Kentucky and Tennessee.

Terms of Court: All sessions are held at Cincinnati.

The Court holds one regular term annually, beginning the first Tuesday after the first Monday in October, and known as the October Term.

The Court holds three calendar sessions annually, beginning on the first Tuesday after the first Monday of the months of October, February and May.

Adjourned sessions of the Court are also held on the first Tuesday after the first Monday of each month in the year, except August and September.

PLATFORMS OF POLITICAL ORGANIZATIONS ADOPTED IN OHIO DURING THE YEAR 1902.

PLATFORM OF THE REPUBLICAN PARTY.

The Republicans of Ohio, in representative convention, before dealing with questions which immediately concern the living, turn aside with profound reverence to lay their tribute on the grave of the dead. Our beloved leader has passed to the great beyond. None can miss him more than we who knew him best.

M'KINLEY.

We deeply lament the tragic death of President McKinley and cherish his illustrious life and noble example as the highest inspiration to patriotic consecration and service. Enshrined forever in the hearts of his countrymen, their unceasing devotion garlands his memory, and on their augmented content and greatness under his sure guidance is reared his worthiest and most enduring monument. What he was in his great and gracious personality and what he did in his lofty and lasting work remain a precious heritage for his people.

Through his legislative and administrative achievements he is justly recognized as the chief architect of our later industrial growth, and as the pathfinder of our opening career of commercial expansion. His measures restored prosperity, diffused confidence and security, promoted fraternal concord, pointed the way to reciprocal advantages in commercial exchanges, enlarged the republic, advanced its prestige and influence among the nations, carried liberty to oppressed peoples, and placed our country in the van of the forces for civilization and humanity.

While he lived his moral power and wisdom and patriotism were the pillar of public safety, and after his death his fixed and well defined policies continue to be the hope and strength of the nation.

ROOSEVELT.

We cordially sustain President Roosevelt in his pledge to carry forward the great work which came to him as a sacred legacy. We recognize his earnest and conscientious devotion to the welfare of the people, and approve the high aims and character of his administration. He faithfully maintains the plighted faith of the nation, upholds the best standard

of the public service, and stands by the policies which assure stability and confidence. He represents a civic patriotism of the highest type and the destinies of the country are safe in his hands. In his frank, able and courageous efforts to protect the public interests he is entitled to full and unreserved support.

STATE AFFAIRS.

We congratulate the people of Ohio upon the business-like and patriotic services of Governor George K. Nash and the state officials of his administration, and we indorse and approve their economical conduct of state affairs.

We commend and approve the Seventy-fifth General Assembly for its wise, economical and patriotic legislation. We especially commend it for its reduction of taxation upon real and personal property in this state, thereby redeeming our pledges made in convention one year ago and carrying out a state policy inaugurated by the Republican party and consummated by a Republican Legislature, assisted by Governor Nash and his administration. The burden of taxation upon all property in this state by the reduction of the state levy from 2.89 to 1.35 mills lessens the amount to be assessed on the real and personal property of Ohio over $3,000,000. The accomplished and proposed legislation in the interest of capital and labor relative to corporations will invite increased investments and open new fields of prosperity for our state.

SENATORS AND REPRESENTATIVES.

Our Representatives in the National Congress have reflected credit upon the state, and their respective Congressional districts. We commend our Senators anad Representatives alike for the patriotic, firm and loyal position they have taken on all questions affecting the welfare and honor of the nation.

To our senior Senator, Joseph B. Foraker, belongs the distinguished honor of having framed the organic law, sanctioned by the Supreme Court for the government of Porto Rico. Eloquent and strong in debate, he has taken a leading part in all the important legislation that has come before the Senate. Of no less distinction and honor, and commanding alike the respect and confidence of labor and capital, serving his state and country with marked fidelity and ability, we commend our junior Senator, Marcus A. Hanna.

CONGRESS.

We indorse the record of Republican Congresses, especially those since the inauguration of William McKinley, and point to the Dingley tariff law and the gold standard act as the inspiring agents and conservators of public confidence, and of a more widely distributed and lasting prosperity than has ever before been shared by labor and capital. Congress has dealt wisely with the problems growing out of the war with

Spain and the government of our new insular possessions. The history of the last half century demonstrates that prosperity is a normal condition only when the Republican party is in power, and that one can not be maintained without a continuance of the other. We, therefore, pledge Ohio's best efforts to continue a Republican majority in the Fifty-eighth Congress.

PROTECTION AND PROSPERITY.

We deem it especially proper that the Republicans of Ohio, the state of William McKinley, should at this time call attention to the general prosperity which followed his first election to the Presidency. A protective tariff law was quickly passed and the gold standard firmly established. From a condition of great business depression and unexampled suffering among those dependent upon our industries, the result of Democratic free trade, the country quickly passed to a state of great business activity and universal prosperity, the most remarkable in the history of the world. All labor is now employed and at wages higher than ever before known. Farm products have doubled in value and earnings and savings have largely increased. The products of the farm, the forests, the mines, the shops and factories, not only supply the marvelously increased home demand, but have permanently placed the United States at the head of the world's exporting nations. Exportations of manufactures now constantly exceed their importations, a condition never known in the history of the country prior to 1897, and our favorable balance of trade has become the greatest, not only in the history of the United States, but in the history of nations.

So great is the country's prosperity and so ample the revenues under the Dingley tariff law, that the present Republican Congress has been able to redeem party pledges by repealing war revenues aggregating $110,000,000 annually, thus reducing taxation to a peace basis, while the army is still on a war footing.

Democratic success would threaten the destruction of the protective system under which our splendid prosperity has come; and the mere shadow of impending free trade would destroy confidence, unsettle business, alarm industrial interests, and immediately check the demand for labor.

We congratulate the country upon a record of diplomatic achievements without parallel in our annals, and which will forever redound to the credit of an administration which, avoiding alliances and entanglements in its foreign policy, has kept steadily in view the glory of the American flag, the growth and spread of American commerce, the steadfast support and maintenance of American doctrines and traditions, and has wrought for the present and the future in the interest of world-wide peace and progress.

LABOR.

No question now pressing for attention can be of greater importance than that which concerns the relations of capital and labor, and we pledge ourselves to the protection of these two servants of civilization. We welcome the investment of capital within our state to the end that labor may be steadily and profitably employed in adding to the wealth and prosperity of our people. We believe with Lincoln that, "Capital is only the fruit of labor, and could never have existed if labor had not first existed. Labor is the superior of capital and deserves much the higher consideration."

To secure for labor the consideration it deserves; to uphold the dignity of toil; to create a healthy public opinion on the subject of labor and the justice of its receiving a full share of the values it creates; to bring labor and capital together on common ground in the adjustment of such questions as may concern these two great factors in production, it is necessary that labor should be intelligently organized. We believe in fewer hours and larger rewards for labor, and favor such laws as will harmonize the interests of labor and capital and tend to lighten the burden of toil.

CHINESE EXCLUSION.

In our last declaration of principles we favored a renewal of the wise provisions by which the unrestricted immigration of Chinese has been prevented, and we now commend congress for re-enacting the Chinese Exclusion Law, thus insuring continued protection to American labor from Chinese immigration.

PENSIONS.

We recognize the debt of gratitude which the nation owes its soldiers and sailors for sacrifices made and patriotic services rendered in time of need, and we hold it is the duty of government to make liberal provision for the disabled survivors, and for the widows, orphans and other dependents of those who have fallen in battle or have died in consequence of wounds received or disease contracted in the military or naval service of the United States.

The Republican party is now and always has been the earnest advocate of the rights of the soldier; it has built up by legislation the present system of pensions, which in its different provisions is the most liberal the world ever saw, and shows a regard for the brave defenders of our country that commands the wonder and admiration of all nations.

We call attention to the fact that at the close of the War of the Rebellion the national debt amounted in round numbers to $2,700,000,000, and since that period this generous government has paid over $2,800,000,000 in pensions alone; that the annual disbursements for pensions are now about $140,000,000, of which the state of Ohio is the beneficiary to the

extent of over $15,000,000, distributed to over 100,000 pensioners, considerably more than one-tenth the entire pension roll in number of pensioners and amount paid by the general government for pensions; that the rate for total disability has been increased by Republican legislation from $8 per month in 1865 to $30 per month and more, according to the different degrees of disability, and we therefore point with pride to the fact that all the promises held out to the defenders of the government in the different platforms of the Republican party have been more than fulfilled in the generous distribution of the nation's bounty by Republican legislation.

POSTAL AFFAIRS.

We point to the splendid record of the Republican party in the development of the postal service, steadily keeping it abreast of the commercial and industrial expansion of the nation, and we hereby reaffirm the declaration of the last Republican national platform, favoring "The extension of the rural free delivery service wherever its extension may be justified," until rural communities enjoy its benefits. We also advocate the extension of the free delivery service to the smaller cities of the country not now entitled thereto under the present law.

NAVY.

We favor a substantial and uninterrupted increase of our navy to meet increasing national demands and protect our constantly growing commerce. The splendid traditions of our early navy were more than maintained in the victories of Manila Bay and of Santiago. A navy is the police force of the seas and is necessary to protect our national interests, to maintain our prestige abroad and preserve the Monroe doctrine, to which our nation's faith is pledged.

SHIPPING.

In 1901 we exported across the seas $1,375,864,060 of goods and our foreign trade carried in ships aggregated $2,151,935,411. Of this vast commerce only 8 per cent was carried in American vessels, and an annual tribute of at least $200,000,000 is paid to ships flying the flags of other nations for freight charges on our commerce. We favor a policy which will restore American ships to their rightful supremacy on the seas, and to this end we urge upon Congress the early passage of all needful legislation encouraging the construction of American ships for carrying our rapidly growing foreign trade, built in American shipyards by American labor, manned by American seamen, and flying the American flag.

ISTHMIAN CANAL.

An isthmian canal is a national necessity. It is necessary alike for national defense and for the increase of our foreign trade. Such a canal

will at once double the efficiency of our navy, give improved access to our steadily growing markets in the orient, reduce transcontinental traffic rates, and increase by leaps and bounds our carrying trade. We favor legislation which will expedite its construction.

TRUSTS.

We recognize the necessity of co-operation in order to meet new conditions in the industrial world, and to compete successfully for the world's markets; but all combinations that stifle competition, control prices, limit production, or unduly increase profits or values, and especially when they raises the prices of the necessities of life, are opposed to public policy and should be repressed with a strong hand.

The Republican party is the only one that has dealt courageously and honestly with the trust question. It enacted, as early as 1890, a law framed by that distinguished statesman, John Sherman, to prohibit and punish combinatitons in restraint of trade, the control of wages, or the advancement of prices. This act, framed by a Republican statesman, passed by a Republican Congress, and signed by a Republican President has proved helpful in preventing abuses by such combinations where such abuses were found to exist, and is now being vigorously applied by a Republican administration in the prosecution of unlawful combinations. Subsequent to the enactment of this law the Democratic party obtained control of both branches of Congress and the Presidency. It constantly asserted hostility to trusts, but failed to place upon the statute books a single line of legislation which would aid in their control.

DISFRANCHISEMENT.

At every national convention held since the adoption of the Fourteenth and Fifteenth Amendments to the Federal Constitution, the Republican party has expressed its approval to those enactments and demanded their faithful enforcement, and has promised that it will never relax its efforts until the integrity of the ballot and purity of elections shall be fully guaranteed and protected in every state, and full and complete civil and political rights secured to all citizens. Whatever promises the nation makes the nation must perform, and wherever any state, by constitutional provision, or otherwise, denies or in any way abridges the right of suffrage the basis of representation in Congress and the electoral college ought to be reduced proportionately.

We urge upon Congress speedy, full and fearless investigation of this subject and immediate action in accordance with the facts thus ascertained.

ANARCHY.

In a government like ours there is no place for anarchy, and we demand that Congress enact stringent laws against attempts on the life

of the Chief Magistrate, or of any person in the line of succession. A murderous attack on the President is a blow struck at the government itself, and should be punished as treason is punished. Our laws guarantee liberty of speech and of the press, but afford no license for the teachings or practice of anarchy. We also denounce lynching and all forms of mob violence.

CUBA.

We congratulate the new republic of Cuba upon the final fruition of the hopes and struggles of her people for freedom and independence. We welcome her to the family of nations. We wish her success and prosperity, peace and happiness. For such part as we, as a nation, have had in assisting her to achieve independence we ask no guerdon save that which we have — the gratitude of a free people. Furthermore, we believe it is due alike to Cuba and to ourselves, that in accordance with the Republican principles of reciprocity, proper and reasonable trade concessions shall be made by our government to Cuba, in return for her concessions upon American products, so as to benefit the trade of both countries, and to fully and generously carry out every obligation of our national honor, whether expressed or implied.

ANNEXATION.

Additions to our territory since 1897 have been fully justified, both by improved conditions in the islands themselves and the improved commercial relations between them and the United States. These islands will not be exploited for the gain of adventurers, but will be developed for the mutual benefit of their own people and honest investors, and will, in time, make the United States a complete commercial entity, capable of producing within its own area practically all the articles required for the daily life and comfort of man.

PHILIPPINES.

We congratulate the President and the army on the satisfactory progress made in the Philippines in suppressing insurrection and establishing order, and we unqualifiedly indorse the policy of our government in those islands.

The war with Spain was forced on us against our will, and the Philippines came to us as one of the results of that conflict. We are responsible for peace and order in the islands and our sovereignty must be as absolute as our responsibility. Our title to the islands is as perefect as was that of Spain after nearly four hundred years of undisputed possession. We will give their people better government, better schools, more civil and political rights and a higher civilization and broader freedom than is possible for them in any other way. Our flag is in the Philippines and there it will remain.

THE ARMY.

The American army has taken up a work of establishing order and maintaining authority in the distant Philippines, and, while we deplore and severely condemn any instances of cruelty which may have occurred, we remember that our soldiers are fighting a barbarous and treacherous foe, who have often inflicted almost inhuman and revolting atrocities upon their prisoners. It is the nation's army, drawn from every section of the country, knowing no politics or creed, but fighting the nation's battles under the nation's flag, and we resent with indignation recent Democratic efforts to drag its honor in the dust and to cast reproach on its fair name.

We proudly reaffirm our faith in all the great cardinal principles of the Republican party, and our allegiance to the declaration adopted by the last Republican national convention, and to the candidates nominated by this convention we pledge our loyal support.

PLATFORM OF THE DEMOCRATIC PARTY.

In state convention assembled, we, the Democrats of Ohio, hereby acknowledge and declare our continual allegiance to the Democratic party of the nation and on national issues reaffirm and endorse the principles laid down in its last national platform adopted at Kansas City and faithfully and ably represented in the presidential campaign of 1900 by William J. Bryan. Regarding these principles as opposed to imperialism and colonialism, as opposed to government by injunction, as opposed to trusts and trust-fostering tariffs, as opposed to financial monopoly and as opposed to all other legalized monopolies and privileges, we condemn every effort to repudiate or ignore them. In state and municipal affairs we pledge our party to a faithful application of these Democratic principles, to the end that the burdens of taxation may be equalized and home rule and local self government be established and preserved.

Under the long continued control of the Republican party in this state, monopoly has been fostered and protected, the farmer and the small home owner has been burdened with excessive taxes that the beneficiaries and favorites of that party might be permitted to escape their just share of the public burdens; our public institutions have been wastefully and inefficiently managed, and in them scandalous and cruel wrongs have been practiced upon the defenseless wards of the state; the farmer and small shippers continue to suffer from unjust discrimination at the hands of unregulated monopoly; the entire system of municipal government has been wrecked and the credit of cities destroyed, thereby producing a spirit of insecurity and unrest in all public affairs.

The people can no longer trust the adminstration of their affairs to a party thus recklessly devoted to interests adverse to the public welfare. As a most specific statement of our principles upon these and other public questions we declare:

1. That all taxable property should be appraised by assessing boards, which should be in session for at least a part of each year, and whose proceedings and deliberations should be open to the public; that power be given to employ representatives to present the interests of the public in hearings before these boards, and that in making assessments all property should be appraised at not less than its salable value.

2. That the present laws for assessing the property of steam railroads and other public service corporations should be so changed as to compel the assessment of these properties at not less than their salable value as going concerns and prevent their evasion of just taxation.

3. That to prevent evasion of state taxes by discrimination in valuations a separation of the sources of state and local revenues should be made. And to that end we heartily endorse the constitutional amendment now pending before the people and to be voted on next year which will permit classifications of taxable property.

4. That all public service corporations should be required by law to make sworn public reports and that the power of visitation and examination over such corporations should be given to the proper auditing officers to the end that the true value of the privileges had by such corporations may be made plain to the people.

5. That the acceptance of free passes or other favors from railroads by public officers or employes should be adequate ground for their removal from office.

6. That the denial of the right of peaceable persuasion in times of labor disturbance is a denial of the right of free speech and that government by injunction, if persisted in, will wreck the liberties of the people.

7. That we demand the enactment of a code which provides absolute home rule for municipalities which shall include the right to establish the merit system with civil service, under which that system, as now in use in fire and police departments, may be strengthened and perfected and be extended to other municipal departments, particularly to water and lighting plants now operated by municipalities and to street car and all public service plants as they may hereafter be established under municipal ownership and operation.

8. That we condemn the vicious and corrupt bargain between the boss of Cincinnati and Ohio's United States senators to force through the legislature a code that will foist upon the municipalities of Ohio Cincinnati's form of government in order that the power of its boss may be preserved on the one hand and on the other will perpetuate existing street railway franchises which Ohio's United States senators represent.

9. That the municipal code should protect the public against all clauses which may be clandestinely placed therein in the special interest of public service monopolies by requiring that all ordinances granting, renewing, extending or modifying franchises shall be inoperative until confirmed by a majority vote of the people of the municipality; and we are unalterably opposed to the granting of any perpetual franchise.

10. That until United States senators are required by amendment to the federal constitution to be elected by popular vote, nominations of candidates for United States senators should be made by state conventions. And we hereby direct that in the official call for the next Democratic state convention of Ohio there be embodied a clause providing for the nomination at that convention of the Democratic candidate for United States senator, and a clause providing for action by said convention upon all the amendments of the state constitution then pending before the people.

Upon these principles of home rule and just taxation, and to the accomplishment of these purposes in municipal and state affairs, we invite the cooperation of all citizens of Ohio, regardless of their party affiliations on national questions, hereby solemnly pledging our candidates to the faithful observance of this declaration both in letter and spirit.

PLATFORM OF THE SOCIALIST PARTY.

The Socialist Party in state convention assembled, reaffirms its adherence to the principles of International Socialism, and declares its aim to be the organization of the working class, and those in sympathy with it, into a political party, with the object of conquering the powers of government and using them for the purpose of transforming the present system of private ownership of the means of production and distribution into collective ownership by the entire people.

Formerly the tools of production were simple, and owned by individual workers. To-day the machine, which is an improved and more developed tool of production, is owned by the capitalists and not by the workers. This ownership enables the capitalist to control the product, and to keep the workers dependent upon them.

Private ownership of the means of production and distribution is responsible for the ever increasing uncertainty of livelihood and the poverty, and misery of the working class and it divides society into two hostile classes — the capitalists and the wage workers. The once powerful middle class is rapidly disappearing in the mill of competition. The struggle is now between the capitalist class and the working class. The possession of the means of livelihood gives the capitalists the control of the government, the press, the pulpit and schools, and enables them to

reduce the working men to a state of intellectual, physical and social inferiority, political subservience, and virtual slavery.

The economic interests of the capitalist class dominate our entire social system; the lives of the working class are recklessly sacrificed for profit, wars are fomented between nations, indiscriminate slaughter is encouraged, and the destruction of whole races is sanctioned in order that the capitalists may extend their commercial dominion abroad and enhance their supremacy at home.

But the same economic causes which developed capitalism are leading to Socialism, which will abolish both the capitalist class and the class of wage-workers. And the active force in bringing about this new and higher order of society is the working class. All other classes, despite their apparent or actual conflicts are alike only interested in the upholding of the system of private ownership of the instruments of wealth production. The Democratic, Republican, the bourgeois public ownership parties, and all other parties which do not stand for the complete overthrow of the capitalist system of production, are alike political representatives of the capitalist class.

The workers can most effectively act as a class in the struggle against the collective powers of capitalism, by constituting themselves into a political party, distinct from and opposed to all parties formed by the propertied class.

While we declare that the development of the economic conditions tends to the overthrow of the capitalist system, we recognize that the time and manner of the transition to Socialism also depends upon the stage of development reached by the proletariat. We therefore consider it of the utmost importance for the Socialist Party to support all active efforts of the working class to better its condition, and to elect Socialists to political offices, in order to facilitate attainment of this end.

As such means we advocate:

1. The public ownership of all means of transportation and communication, and all other public utilities, as well as of all industries controlled by monopolies, trusts and combines; no part of the revenue of such industries to be applied to the reduction of the taxes of the capitalist class, but to be applied wholly to the increasing of the wages and shortening of the hours of labor of the employes, and to the improvement of the service, and diminishing the rates to the consumers.

2. The progressive reduction of the hours of labor and the increase of wages, in order to decrease the share of the capitalist and increase the share of the worker in the product of labor.

3. State or national insurance of working people in case of accident, lack of employment, sickness, and want in old age; the funds for this purpose to be collected from the revenue of the capitalist class, and to be administered under the control of the working class.

4. The inauguration of a system of public industries; credit to be used for that purpose in order that the workers be secured the full product of their labor.

5. The education of all children up to the age of eighteen years, and state and municipal aid for books, clothing and food.

6. Equal civil and political rights for men and women.

7. The initiative and referendum, proportional representation, and the right to recall representatives by their constituents.

But in advocating these measures as steps in the overthrow of capitalism, and establishment of the Co-Operative Commonwealth, we now warn the working class against the so-called public-ownership movements as an attempt of the capitalist class to secure governmental control of public utilities for the purpose of obtaining greater security in the exploitation of other industries, and not for the amelioration of the conditions of the working class.

The trades union movement and independent political action are the chief emancipating factors of the wage-working class. The trade union movement is the natural result of capitalist production, and represents the economic side of the working class movement. We consider it the duty of Socialists to join the unions of their respective trades and assist in building up and unifying the trades and labor organizations. We recognize that trades unions are by historical necessity organized on neutral grounds, as far as political affiliation is concerned.

We call attention to the trade struggle so nobly waged by the trades union forces to-day, while it may result in lessening the exploitation of labor, can never abolish that exploitation. The exploitation of labor will only come to an end when society takes possession of all the means of production for the benefit of the people. It is the duty of every trades unionist to realize the necessity of independent political action on Socialist lines, to join the Socialist party and assist in building up a strong political movement of the wage-earning class whose ultimate aims and objects must be the abolition of wage slavery and the establishment of a co-operative state of society, based on the collective ownership of all the means of production and distribution.

PLATFORM OF THE PROHIBITION PARTY.

The Prohibition party of Ohio in convention assembled unites in the following declaration of principles:

"The true greatness and the true prosperity of nations is absolutely dependent upon the sobriety, intelligence and character of their citizenship. Any influence which tends to undermine or injure these, poisons the stream of government at its fountain: and the removal of such per-

nicious influence should be the constant aim of all good citizens: taking precedence of all questions which are merely financial or administrative in their nature.

"The traffic in intoxicating liquors for beverage purposes, is destructive of manhood, wasteful of property, subversive of the good order of society and distastrous to the state. It impairs the efficiency of government and increases enormously, beyond all income received from it, the burdens of taxation in the prosecution and punishment of criminals, the relief of pauperism, and the care of the orphans and insane — the inevitable fruits of the traffic.

"The saloon is the hot-bed of political corruption, the hand-maid of bribery, the home of anarchy, the cesspool of social degredation and the ready ally of every enemy of just government and the public weal.

"Its fruits prove it to be contrary to every interest of man and opposed to the supreme will of God, which is the standard of good government. To legalize this traffic we denounce as treason against the best interest of the state and rebellion against God.

"We, therefore, declare our unalterable conviction that the immediate and utter destruction of the saloon and the absolute prohibition of the manufacture, importation, exportation, transportation and sale of inoxicating liquors for beverage purposes is the paramount issue in American politics: and we pledge ourselves when intrusted with power to enact and execute such laws as will secure these ends.

"We recognize the importance of other important public questions, but their proper and just solution is so embarrassed by the existence of the legalized liquor traffic as to be well nigh hopeless until that is removed. We confidently believe that the party which is able to remove this fruitful source of misgovernment and wrong and restore the nation to sobriety and honor, may safely be entrusted with the management of all questions of administration and finance.

"The Democratic and Republican parties, after long and patient trial, have shown themselves unworthy of trust. They have demonstrated beyond the shadow of a doubt that they are unwilling and unable to cope with this greatest of all questions. Under their domination the burden of taxes have been enormously increased; the liquor traffic has gained entire control of them; the laws for its restraint have been gradually emasculated; and such as are left upon the statute books constantly and brazenly trampled upon; and with little effort on the part of the old party officials anywhere for their honest enforcement.

"We, therefore, urge upon every voter who is opposed to the saloon, to anarchy, to dishonesty and incompetency in government; who desire the protection of the home, the advancement of Christian citizenship, the moral and financial welfare of society and the perpetuity of the state, to make known his sentiments in the only efficient way by voting the Prohibition ticket at the coming election."

PLATFORM OF THE SOCIALIST LABOR PARTY.

The Socialist Labor Party of the United States, in convention assembeld, reasserts the inalienable right of all men to life, liberty, and the pursuit of happiness.

With the founders of the American Republic, we hold that the purpose of government is to secure every citizen in the enjoyment of this right; but in the light of our social conditions we hold, furthermore, that no such right can be exercised under a system of economic inequality, essentially destructive of life, of liberty, and of happiness.

With the founders of this Republic, we hold that the true theory of politics is that the machinery of government must be owned and controlled by the whole people; but in the light of our industrial development we hold, furthermore, that the true theory of economics is that the machinery of production must likewise belong to the people in common.

To the obvious fact that our despotic system of economics is the direct opposite of our democratic system of politics can plainly be traced the existence of a privileged class, the corruption of government by that class, the alienation of public property, public franchises and public functions to that class, and the abject dependence of the mightiest of nations upon that class.

Again, through the perversion of democracy to the ends of plutocracy, labor is robbed of the wealth which it alone produces, is denied the means of self-employment, and, by compulsory idleness in wage slavery, is even deprived of the necessaries of life.

Human power and natural forces are thus wasted that the plutocracy may rule.

Ignorance and misery, with all their concomitant evils, are perpetuated that the people may be kept in bondage.

Science and invention are diverted from their humane purpose to the enslavement of women and children.

Against such a system the Socialist Labor party once more enters its protest. Once more it reiterates its fundamental declaration that private property in the natural sources of production and in the instruments of labor is the obvious cause of all economic servitude and political dependence.

The time is fast coming, however, when in the natural course of social evolution, this system, through the destructive action of its failures and crises on the one hand, and the constructive tendencies of its trusts and other capitalist combinations on the other hand, shall have worked out its own downfall.

We, therefore, call upon the wage workers of the United States, and upon all other honest citizens, to organize under the banner of the Socialist Labor Party into a class-conscious body, aware of its rights and determined to conquer them by taking possession of the public powers;

so that, held together by an indomitable spirit of solidarity under the most trying conditions of the present class struggle, we may put a summary end to that barbarous struggle by the abolition of classes, the restoration of the land and of all the means of production, transportation and distribution to the people as a collective body, and the substitution of the Co-Operative Commonwealth for the present state of planless production, industrial war and social disorder; a commonwealth in which every worker shall have the free exercise and full benefit of his faculties, multiplied by all the modern factors of civilization.

*From 1803 to 1850, the Secretary of State was elected by the General Assembly.

†The Democratic party of to-day claims lineal descent from the first Republican party with President Jefferson as its founder. Authorities differ as to the date when the party dropped the name Republican and assumed that of Democrat, it being ascribed to various dates between 1805 and 1820.

‡Political parties were disorganized at the time of the election of John Q. Adams. He claimed to be a Republican as Jefferson, but his doctrines were decidedly federalistic. The opposition to his administration took the name of Democrat and elected Jackson President in 1828.
